Testimony from a Student

My name is Azhar. I am from Iraq. I'm married and have two kids. When I first arrived, I didn't know how to speak English. My neighbors told me to go to a certain school, that there were English lessons there. I went there, but I felt that the lessons they have were not for me. So I dropped and started looking for another school. Some friends recommended Friendships For Hope. I started to attend the classes here. My husband noticed the change in my English. A few months later I was able to go to the market and talk to people there all by my myself. Until now I am still attending this lovely school to improve myself.
