English as a Second Language School Classes Monday-Friday

Our ESL program is helping refugees learn English and get the tools necessary to become productive citizens of our community. This is the most valuable skill we can give them.

Food Ministry Continues to Grow.

In addition to providing our immigrant and refugee students weekly boxes of food, our weekly distribution of food and clothing on Tuesday mornings to the community is providing over 15,000 pounds of food each week to over 650 families.

Growing into Citizenship

It is exciting to help our students grow and become productive citizens of our community! We are honored to assist these families to become United States citizens.

Students Work in Our Community Garden.

We are delighted that Paradise Valley Hospital has partnered with us, leasing us a large parcel of land to develop into a community garden for the families of National City and South San Diego.

P. V. Thrift Store Is our Job Training Site.

Advanced English language learners can gain valuable job skills at our store, and also provide quality items at a great price to our community. Our store is located at:

NorDan Plaza
3400 E. 8th Street, Suite 112
National City - 619-399-5998

Rosetta Stone Computerized Language Labs

Language labs are proving to be extremely popular and a great tool in assisting our students to get a working grasp of English.

Refugee/Immigrant Assimilation Project
